

# Focus on Mitral and Tricuspid intervention

**13**  
**settembre**  
**2022**  
9:00-15:00

Aula G Centro Congressi  
Istituto Clinico Humanitas - Rozzano (MI)

<b>09:00-09:05</b> Course introduction	Bernhard Reimers Antonio Colombo	<b>13:15-14:00</b> Live case demonstration: Mitraclip for treatment of mitral regurgitation	
<b>09:05-09:20</b> Tricuspid valve: how to select the appropriate candidate	Alessandro Sticchi	<b>14:00-14:15</b> Interesting cases of mitral TEER/TMVR: patient's selection, procedural planning, device selection. Flow chart in patient treatment choice	Damiano Regazzoli Andrea Fumero
<b>09:20-10:10</b> Live case demonstration: Triclip for treatment of TR	Antonio Colombo Antonio Mangieri Renato Maria Bragato	<b>14:15-14:30</b> Mitral and tricuspid regurgitation in heart failure: the point of view of the heart failure specialist	Daniela Pini
<b>10:10-10:40</b> Echocardiographic evaluation in tricuspid regurgitation	Francesco Cannata	<b>14:30-14:45</b> CT scan and RMN in mitral and tricuspid regurgitation	Marco Francone Lorenzo Monti
<b>10:40-11:00</b> Coffee break		<b>14:45-15:00</b> Questions and final remarks	
<b>11:00-11:30</b> Interesting cases of TEER: patient's selection procedural planning, device selection (Live in a box: new generation W XTR for tricuspid regurgitation)	Antonio Mangieri		
<b>11:30-11:45</b> Question time			
<b>MITRAL FOCUS</b>			
<b>11:45-12:00</b> What guidelines tell us about MitraClip and should we go beyond?	Matteo Pagnesi		
<b>12:00-12:15</b> What is good for MitraClip	Antonio Mangieri		
<b>12:15-12:30</b> What is good for Tendyne	Lucia Torracca		
<b>12:30-12:45</b> Echocardiographic identification of good candidate for MitraClip	Francesco Cannata		
<b>12:45-13:15</b> Lunch break
