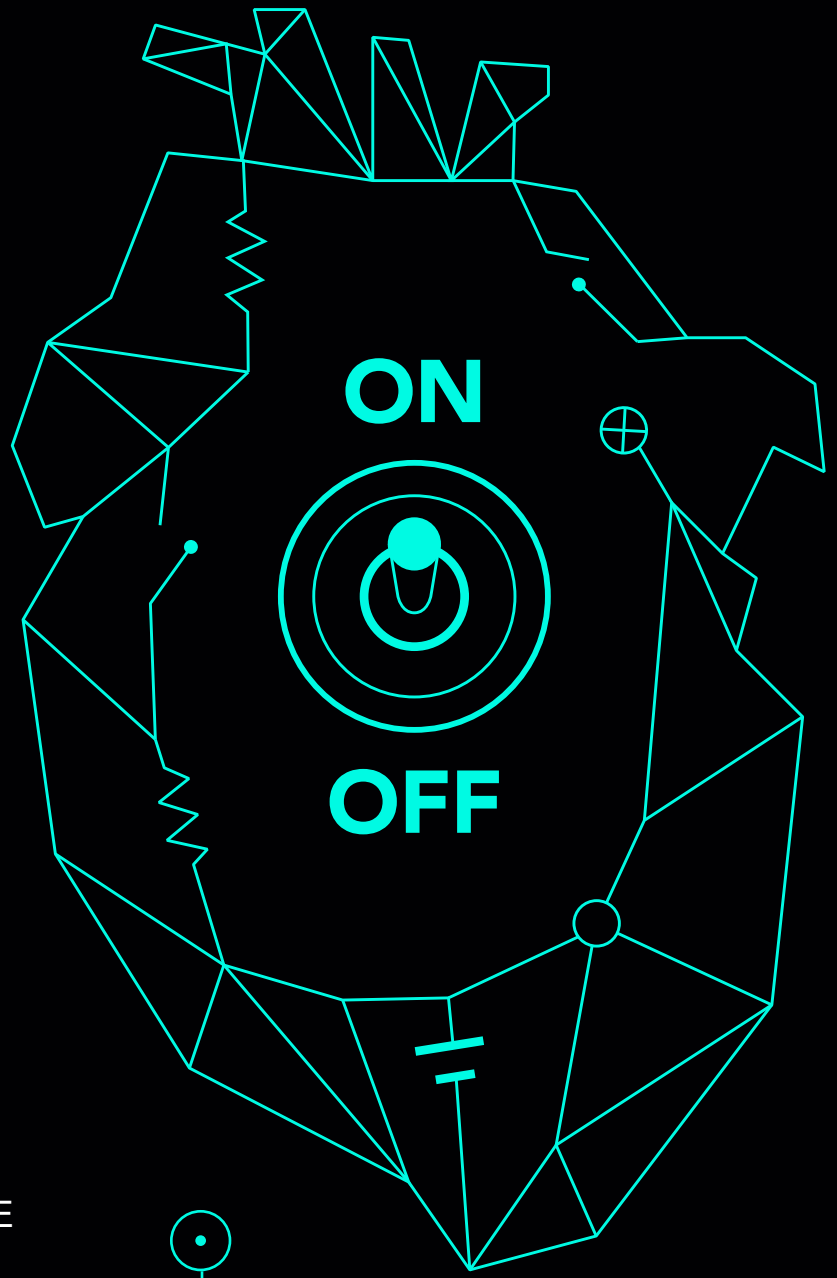
MVSIC ELECTROSURGERY



22 September 2026

Coordinators:
Antonio MANGIERI Rozzano IT
Damiano REGAZZOLI Rozzano IT

Rationale:
The use of electrified wires is increasingly used in structural heart interventions to modify valve leaflet anatomy, cut myocardium, puncture the atria septum, and create communication between veins and arteries.
The present workshop is designed to give an overview of the pres-ently used techniques.
Furthermore, a hands-on session will allow to get familiar with devices and meticulous, CT-based case preparation will be shown. Live cases will allow participants to jump from theory into practice. We recommend the participation of structural teams consisting of interventionalists and echocardiographers of the same institution.

Faculty:
Vasilis BABALIAROS Atlanta USA
Francesco BEDOGNI S. Donato M.se IT
Ottavia COZZI Rozzano IT
Federico DE MARCO Milano IT
Marco GUERRINI S. Donato M.se IT
Orges HOXHA Milano IT
Bernhard REIMERS Rozzano IT
Martina RUFFO Rozzano IT

Under the patronage of:
GISE
Società Italiana di Cardiologia Interventistica

09:30 - 09:40	Welcome and objects of the course
09:40 - 10:00	Overview of the electrosurgical techniques - **F. De Marco**
10:00 - 10:30	CT analysis for coronary obstruction and LVOTO evaluation **- O. Hoxha**
10:30 - 10:50	Echo-guidance in electrosurgery **- M. Ruffo**
10:50 - 11:10	BASILICA-UNICORN-CHIMNEY: How to choose **- F. Bedogni**
11:10 - 11:30	**Live case** from Humanitas Research Hospital (UNICORN)
11:30 - 12:15	**Open coffee and Hands on session**
12:15 - 12:35	**Live in the box** Application of electrosurgery in accesses. Transcaval cases: How to plan and how to perform - **O. Cozzi**
12:35 - 13:15	**Live case** from Centro Cardiologico Monzino (BASILICA)
13:15 - 14:00	**Lunch**
14:00 - 14:50	**Live case** from Humanitas Research Hospital (BATMAN)
14:50 - 15:10	SESAME **- V. Babaliaros** (remote connection)
15:10 - 15:30	LAMPOON-BATMAN: How to choose **- A. Mangieri**
15:30 - 15:40	**Live in the box** LVOTO obstruction **D. Regazzoli**
15:40 - 16:10	Complications session **- M. Guerrini**
16:10 - 16:15	Wrap-up and final considerations
